

Center for Precision Diagnostics

**HENRY
FORD
HEALTH**SM

**Discover
the power
of Precision
Diagnostics**

Experience personalized care at Henry Ford Health through precision diagnostics. By analyzing your genetic variations and mutations, we gain deep insights into your unique genetic profile, enabling tailored and highly accurate treatment strategies. Embrace the power of precision for individualized healthcare.

Why choose precision diagnostic testing?

1	2	3
<p>Unleashing Personalized Potential: Embracing precision diagnostics means embracing personalized care. By analyzing your genetic blueprint, we gain valuable insights into your unique genetic makeup, allowing us to tailor treatment and prevention strategies precisely to your individual needs. No longer will you have to settle for generalized approaches that overlook the nuances of your condition.</p>	<p>Unrivaled Accuracy: With precision diagnostics, we leave no stone unturned. By meticulously examining genetic variability and mutations within your genes, we uncover vital information that enhances diagnostic accuracy. This means more targeted and effective treatments, resulting in improved outcomes and a better quality of life for you.</p>	<p>Shattering the One-Size-Fits-All Barrier: Precision diagnostics recognizes the individuality of each patient, considering their unique genetic landscape and disease characteristics. By understanding the intricacies of your genetic code, we can craft a tailored approach that addresses your specific needs, maximizing the chances of successful treatment and prevention.</p>

Our offerings simplified

Expert Pathology Insights	Cutting-Edge Genomic Testing	Wide Range of Genomic Tests
<p>Our dedicated team of certified molecular pathologists and cytogeneticists is Michigan's largest. With their expertise, we provide you:</p> <ul style="list-style-type: none"> • Direct consultations with board-certified experts • Precise test selection and interpretation • Michigan's sole CLIA and ISO 15189 accredited Molecular Pathology and Genomics Lab 	<p>Experience our advanced testing methods, including:</p> <ul style="list-style-type: none"> • Comprehensive Molecular Pathology and Cytogenetics tests since 2003 and 1966 respectively • Next Generation Sequencing for DNA & RNA • Whole Genome SNP Micro-Array Testing • Chromosomal and FISH Analysis 	<p>Our services cover diverse clinical needs:</p> <ul style="list-style-type: none"> • Germline and Somatic Cancer Mutations • Genetic Cancer Predisposition Analysis • Non-forensic Patient and Tissue Identity Testing • Pharmacogenomics

Swift Results, Minimal Tissue	Added Benefits	Connect with Us
<p>Our efficient reporting offers:</p> <ul style="list-style-type: none"> • Faster treatment planning • Minimal delay in decisions • On-time Tumor Board presentations • Quick communication among care providers 	<p>Convenient Patient Service Centers in Southeast Michigan</p> <ul style="list-style-type: none"> • Insurance authorization and financial navigation available • Low-cost options and payment plans • Rapid communication via phone and email • Genetic counseling options and VOUS tracking for comprehensive support (Variant of Unknown Significance) 	<p>Talk: 313.916.4DNA (4362) 855.916.4DNA (4362)</p> <p>Email: hfcpd@hfhs.org</p> <p>Website: www.HenryFord.com/HFCPD</p>

Professional Board Certified Staff

Molecular Pathologists

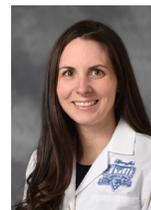

Dhananjay Chitale, M.D.
Vice Chair of Anatomic Pathology
Division Head of Molecular Pathology
Genomic Medicine
Memorial Sloan Kettering Cancer Center
Board Certifications: Anatomic & Clinical Pathology, Molecular & Genetic Pathology and Molecular Diagnostics

Juan Gomez-Gelvez, M.D.
Senior Staff Hematopathologist
Section Chief, Molecular Hematopath
Memorial Sloan Kettering Cancer Center
Board Certifications: Anatomic & Clinical Pathology, Hematopathology, Molecular & Genetic Pathology

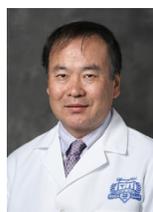

Gaurav Sharma, M.D.
Vice Chair of Clinical Pathology
Division Head of Regional Laboratories
University of Pittsburgh
Board Certifications: Anatomic & Clinical Pathology, Molecular & Genetic Pathology and Clinical Informatics

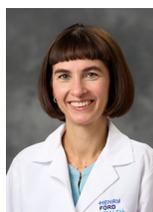

Laura Favazza, D.O.
Molecular Pathology Senior Staff
University of Pittsburgh
Board Certifications: Molecular & Genetic Pathology, Breast, Head and Neck Pathology

Yulei Shen, M.D.
Molecular Pathology Senior Staff
University of Michigan
Board Certifications: Anatomic & Clinical Pathology, Hematopathology, Molecular & Genetic Pathology

Zhiqiang (Brad) Wang, M.D.
Molecular Pathology Senior Staff
University of Pittsburgh
Board Certifications: Molecular & Genetic Pathology, Anatomic & Clinical Pathology

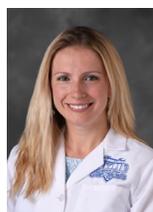

Cigdem Ussalki, M.D.
Molecular Pathology Senior Staff
University of Washington
Board Certifications: Molecular & Genetic Pathology, Anatomic & Clinical Pathology

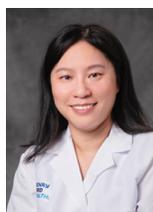

Molecular Ph.D. Scientists

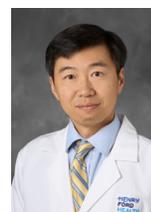

Brandon Shaw, Ph.D.
Director of Cytogenetics Laboratory
Henry Ford Health
University of Alabama Birmingham
Board Certifications: Cytogenetics and Molecular Pathology

Olena Kis, Ph.D.
Director of Molecular Pathology Laboratory
Henry Ford Health
University of Toronto
Board Certifications: Laboratory Genetics and Genomics

Xiaolan Fang, Ph.D.
Associate Director, Cytogenetics
Henry Ford Health
University of Virginia
Board Certifications: Laboratory Genetics and Genomics

Ting Wen, Ph.D., M.D.
Associate Director, Molecular Pathology Lab
University of Utah
Board Eligible: Laboratory Genetics and Genomics
